02890 843676 or **07872 693223**

A word from our Directors

Allister Moore Welding and Engineering Supplies Ltd has been a major supplier of welding and engineering equipment and consumables for over 20 years. Year on year the Company has continued to expand. and grow its workforce.

Company Directors, Allister Moore who founded the Company and Andy Hyslop, who joined the company in 1994, have developed a working partnership with all types of engineering in N. Ireland.

Allister Moore

Allister Moore stated "This new facility is a natural extension of our business. We can now offer the full package of equipment, consumables and training in our product".

Andy Hyslop stated "Through feedback from our customer base, we have established that there is a requirement for welder training, and initial bookings for 2010 are confirming this".

Andy Hyslop

Graeme McGarel

Managing and training for the unit will be carried out by Graeme McGarel. Graeme has a broad range of experience in welding and engineering. He has previously worked as a welding Technician in the GEC. Roles in FG Wilson included; Welding Instructor, Training Officer, NVQ Verifier and Welding Robotics Engineer. He also had a 2 year spell working as an NVQ External Verifier for the Engineering Training Council (NI). This wealth of experience will be used to ensure all trainees will receive a training package compiled and delivered to the highest quality.

Our spacious welding booths were designed to meet full Health & Safety requirements.

Each unit is equipped with:

- **Individual Fume Extraction Unit**
- **Anti-Fatigue Floor Mat**
- **Health & Safety Notice Board**
- **Welding Tools**

Our training room will be used to deliver all theory training for Health & Safety, Welding, Abrasive wheels and Manual Handling.

Additional Facilities:

- **3m fitting bench**
- **Plasma cutting booth**
- **Wash Room and Toilet**
- **Tea area—free tea & coffee**
